Experience

Dhaka Electric Supply Company Limited(DESCO)

Assistant Engineer

Dhaka, Bangladesh

Mar, 2020–Present

- Designed and developed custom reports using BIRT
- Built Contractor Management module for Inventory System using Java, Spring MVC, Hibernate, and Oracle
- Fixed bugs and improved functionality in Inventory and Customer Service Management Systems
- Added new features to Customer Service System using Java, Spring Boot, JPA, JavaScript, jQuery, and Oracle
- Conducted UAT with banks and MFS for Bill Payment API
- Performed data analysis and created custom reports using Oracle SQL

Skills: Java, Spring Boot, Spring MVC, Hibernate, JPA, JavaScript, jQuery, Oracle SQL, BIRT

CommLink Info Tech Ltd

Member, Research and Development

Dhaka, Bangladesh

Oct, 2015– Feb, 2020

- Developed Android apps using Android(Java), SQLite, REST APIs, and Firebase
- Built a Document Management System with Java, Spring MVC, Hibernate, jQuery, and MySQL
- Implemented serial communication protocols for embedded systems
- Wrote unit tests for legacy C code to enhance reliability
- Performed manual testing of Layer 2 and Layer 3 network protocols

Skills: Android, Java, SQLite, Firebase, REST API, Spring MVC, Hibernate, jQuery, MySQL, C

Education

Bangladesh University of Engineering and Technology

Bachelor of Science in Computer Science and Engineering
CGPA: 3.59 out of 4

Dhaka, Bangladesh

2010– 2015

Technical Skills

- Language: Java, JavaScript, Shell
- Frontend: React.js, Next.js, jQuery
- Backend: Spring Boot, Hibernate ORM, JPA, Typescript, Express Nodejs, Prisma
- Database: MySQL, Oracle, SQL, Postgresql
- OS: Windows, Linux
- IDE: Visual studio code, IntelliJ IDEA
- Tools/Other: Apache Tomcat, Git, Ansible, BIRT

Projects

Online Customer Service Management System

A web-based, paperless customer service platform that enables users to apply for new electricity connections and submit various complaints. Internal users can submit field inspection reports, generate bills, and complete the entire service workflow. The system also includes a bill collection module to facilitate payment processing.

- Technology Stack: Spring Boot, Hibernate ORM, Oracle, JavaScript, jQuery, BIRT

Web based Inventory Management System

Developed and debugged various features to manage item stock entries across multiple stores, enabling users to create requisitions and return requests for different items. Contributed to system modules for contractor management, budget submission, and annual procurement planning.

- Technology Stack: Spring MVC, Hibernate ORM, Oracle, JavaScript, jQuery, BIRT

SIM Registration using Biometric Verification with NID

Designed and developed the Robi Biometric Verification Android app, including key features like registration, SIM replacement, bulk re-registration, and transaction history. Handled requirement analysis and module development.

- Technology Stack: Android (Java), Android Studio, XML layouts, Firebase, SQLite

Iclique

Developed a Document Tracking System with user features for document submission and status tracking.

- Technology Stack: Spring MVC, Hibernate ORM, MySQL, JavaScript, jQuery

Message App

Built an Android SMS app to send, receive, and track SMS threads.

- Technology Stack: Android (Java), Android Studio, XML layouts, SQLite, Firebase

Attendance App

Created an Android Attendance app with employee login and registration via fingerprint authentication.

- Technology Stack: Android (Java), Android Studio, XML layouts

Router-switch

Worked with cross-compilers and OS image builders for embedded systems. Developed a shell script for encoding/decoding binary data over serial connections. Wrote unit tests for legacy C code and performed manual testing of Layer 2 and Layer 3 network protocols.

- Technology Stack: C, Shell

Interests

- Software development
- Mobile app development
- Data analysis
- Red Hat Enterprise Linux
